PRECISE POUR & FLAIROSOL

Award winning precision pouring teams up with a new way to spray.

Precise Pour

Our award winning Precise Pour fits perfectly together with the Flairosol.

The Precise Pour enables you to pour the right volume of liquid without the risk of spilling it. It is simple to apply, intuitive to use, hard to damage and it performs unlike any other tap on the market! It is designed to be used on bottles ranging from 500 ml up to 25L to dispense liquid. Available in the capsize 38 mm and 58 mm this awarding winning cap features in all areas which create a user experience like no other.

The Precise Pour has already won multiple awards including the PIDA awards 2018 and the most prestigious Worldstar Awards 2019!

Flairosol

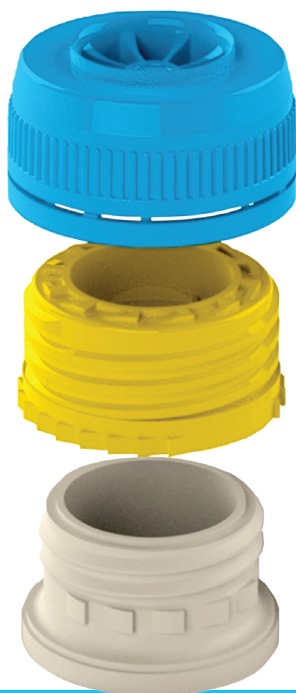

Flairosol delivers a better spray quality than other brands and it is comfortable to use. The fine mist combined with continuous spray creates a user experience unlike any other device. It easily covers large areas from the first to the last drop.

Flairosol is available in 180 ml / 290 ml bottles. It is suitable for multiple tasks including plant care, pet care, horse care, car care, self tanning and hair care.

Flairosol exceeds the high performance expectations and environmental demands of spray-able dispensing solutions across a variety of applications!
