The Precise Pour Tap by Caps and Closures is designed to be used on bottles ranging from 500ml up to 25L to dispense liquid and is tamper evident. This awarding winning cap features in all areas which create a user experience like no other. It is simple to apply, intuitive to use, hard to damage and it performs unlike any other tap on the market. The product is designed to replace any tap that requires the customer to puncture the bottle and any tap that is designed to be sold as an additional component.
