

CAPS &
CLOSURES

TWIST -OFF[®]

THE ORIGINAL AND THE BEST

Be assured of variety: Twist-Off® & PT. Variants, diameters, shapes.

Experience the original Twist-Off® and PT closures from Silgan Closures. We offer a comprehensive range of products for numerous applications – with a wide variety of shapes and in diameters ranging from 27 to 100 mm.

All Twist-Off® and PT closures (ø 40, 51, 54, 63, 70mm) are designed to meet changing market demands and consumer habits – especially for oxygen-sensitive, vacuum-packed, and aseptically vacuum-packed foods and beverages. The filling is always perfectly protected, with no effect on taste and without loss of quality.

Sealing Gasket

Premium proprietary compound materials for sealing gaskets are developed in house. This enables seals to be created with particular properties that ensure:

- Maximum pack integrity
- Food product safety that meets all types of filling requirements
- BPA-NI compounds also available

Enhancement

Create further on-shelf differentiation through a variety of decoration options:

- High quality multi-colour printing
- Specialty inks and coatings with glossy or matt finishes
- Shaping features such as embossing
- Stand and Deep Skirt closures available
- Other options available on request

Food Preservation

Unrivalled oxygen barrier properties are achieved through the use of tin plated steel combined with specially designed compound materials for the sealing gasket. This airtight seal protects food from contaminants and minimises Vitamin C degradation or discolouration cannot escape and mix with other food products.

Convenience

Easy to open, easy to reseal, while the tight reseal after initial opening allows opened jars to be stored in the refrigerator and ensures odours cannot escape and mix with other food products.
