The Twist Cap by Twist Drop Shake Cap is designed to be used on bottles ranging from 250ml up to 2.5L to dispense powders or seeds and is tamper-evident. This patented cap enclosure is designed to allow for isolation of active ingredients to bypass the need for preservatives by delaying osmosis. It is easy and intuitive to use.

Twist to release the contents being securely isolated into the liquid contents of the bottle shake to blend and consume.

TDS38

Twist Cap 38mm

Neck: 38mm
Isolation Capacity: 15g
Refillable and Reusable

Specifications

- Cap size: 38mm
- Isolation capacity: 15g
- No breather holes, bungs
